Three Billion Year Walk

Look for this
Carin Sculpture

to start your walk

A lot has happened in the last three billion years! Explore the geologic history of Wisconsin as you walk between the northeast corner of the Urban Ecology Center parking lot and the Milwaukee River following a series of cairn sculptures made of stone from Wisconsin. There are nine sculptures in all, each representing a different stage in geologic time between approximately 390 million years and approximately three billion years.

URBAN ECOLOGY CENTER

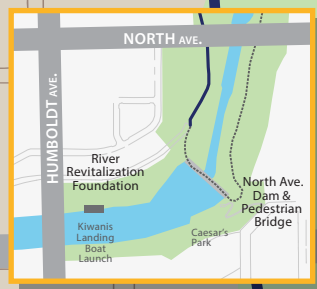

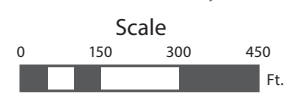

Restrooms available during open hours

HOURS
 Monday - Thursday
 9 a.m. - 7 p.m.
 Friday & Saturday
