A little more than two and half years ago, when I first started working at the Center, I was given the opportunity to speak at the groundbreaking ceremony for Three Bridges Park. In the weeks leading up to the ceremony I wracked my brain for something meaningful to say. I shared a story about a time in high school when, after walking by Miller Park, I got lost on the north side of the Menomonee River and had to wade across, then traipse through the rail yard beneath 35th Street to get home.

My story was about overcoming the disconnect and isolation I'd experienced in my own neighborhood. It ended with my sentiment that we as a community would work together to make the neighborhood a “bigger” place.

There are metrics to suggest that we are indeed well on our way; 24-acres of native habitat, new paths along the river and over forty newly constructed garden plots for gardeners all attest to our expanding physical space. Likewise, our community of participants grows daily as scores of adults and children come through the Valley Passage at Pierce Street to work, learn and perhaps most importantly to play, in those long unused spaces of the Valley.

Then there are the intangibles. No less important, but definitely harder to measure. On the nights I've walked home or waited for the bus, I come across familiar faces. Children and parents who might still be strangers if not for our shared time at the Center. With little more than a knowing smile and nod, or a brief chat to see...

Lake Michigan Lessons

by Katie Wipfli, Environmental Educator

One of my favorite places to take school groups is Lake Michigan. It is such a valuable resource right in the backyard of our city. We use it in many ways to teach lessons to students. One lesson is that our drinking water comes from Lake Michigan.

Another is the rock cycle, during which we collect different rocks at the “skipping stone beach.” Recently, my co-teacher Tory and I used the beach to teach 4th graders about glaciers and glacial landforms.

Before we went to the lake, we froze large blocks of ice in cake pans. At the beach, we could push these “glaciers” around in the sand to demonstrate how the glaciers move as well as the landforms they can leave behind after they melt. We talked about moraines, kettles, kames, eskers, erratics and drumlins. After the initial discussion came the fun part. We turned 22 4th graders loose on the beach to recreate the landforms in the sand.

One group was even determined to make a kettle so deep they would hit Australia. Another group made great progress; by the time we left they had a hole that was so deep they had to lie on their stomachs and reach their arms as far as they could go to remove any more sand. I loved being able to walk around on the beach listening to students working together to build these structures, using the vocabulary they had learned to describe them. After about 30 minutes of making landforms we had to drag them away from their creations to do one final thing before heading back to the buses.

The very last activity before going back to school was to throw rocks into the lake. The most memorable moment was when a boy who had been running around all day slowed down for just a minute to learn how to skip a rock. We watched as he tried a couple times, then we started walking down the beach to check on other students. We knew he was successful when we heard him scream, “I DID IT! I SKIPPED THAT ROCK!”

Later, I noticed he put a rock in his pocket and asked what he was going to do with it. He told me he was going to go home and show his dad how to skip a rock. It is moments like this I will remember forever. Not only did we learn about glaciers, but the students made a connection to the lake that they wanted to take back home and share with their families.

A Bigger Place

continued from page 1

how school’s going, a deeper message is communicated - we’re in this together.

The Center is a new type of space for a community with a new energy and a willingness to reject (and even dismantle) divisions of race and class and fear - divisions that bind us to certain streets and a narrow collection of city blocks. It’s an open and beautiful environment for a community that demands just that, openness and transparency. Keep demanding and let’s keep working.

Eat Local Resource Fair gets a new name! We’re updating the Eat Local Resource Fair and giving it a new name the Local Food & Wellness Fair. Come to on September 12 and optimize your good health with local food and natural wellness.

Wish List for Summer Camps:
- Camping water bladders (3-5 gal)
- Clear film canisters w/lids
- Flower stem water vial/holder
- Inner tubes (big tractor size)
- Lego blocks/K’Nex building toys
- Milk jugs (1 gallon)
- New white t-shirts for kids ages 9ish
- Picture frame (no bigger than 8x11)
- Picture mattes, various sizes
- Water bottles (for kids) (15)
- Nature magazines
- Jewelry making material
- Recycled color paper
- (2) Tights- Ivory or clear colors
- Paper to paint with pastel

The Brewers Community Foundation has selected the Urban Ecology Center as one of four nonprofits for their first ever benefit bike ride — Hitting 4 The Cycle.

We thank Milwaukee Brewers Community Foundation for their generosity and encourage you to sign up and ride on the Urban Ecology Center team!

Registration includes a Tailgate Party and one ticket for the Brewers vs. Cardinals game that night.

To learn more and to register visit: brewers.ride-mlb.com
Protection and restoration of the land is an essential part of what we do. Through hands-on work, our Land Stewardship team and volunteers grow healthy native habitats in which animals and plants can thrive. These areas are also important to our environmental education programs. Plus they are a great place to explore the natural world!

Over 20,000 plants and trees were planted by our team and volunteers in the last three years.

We manage over 50 acres of land in three parks.

We protect and enhance 14 plant communities including Oak Woodland, Dry Mesic Prairie and Floodplain Forest. We even have a fruit orchard in Washington Park!

We're busy year round! In winter and early spring our team gathers and "cleans" seeds by hand to remove stems, capsules, leaves and other non-seed components to use in our parks (see photo on left).

If you'd like to support projects like these, consider volunteering or making a donation. Learn how at www.urbanecologycenter.org
A note from Jamie Ferschinger, Riverside Park Branch Manager:

I met Jimmy this past fall when he and his friends started coming to the Urban Ecology Center after school. Jimmy shared with me that he was studying writing and that one of his life goals was to see his work in print. We are happy to provide this platform for Jimmy to share his voice with the Urban Ecology Center community.

Jimmy is a recent graduate of Riverside University High School. Thank you for writing this article, Jimmy and congratulations on graduation!

The Story of Us
by Jamill “Jimmy” Bradley, community member

A lot has been said about the youth of today, sparking a long-winded conversation regarding the merit of each generation. Questions of generational inferiority, criminal intentions and crippling apathetic mindsets have all seemed to elicit less than flattering opinions about those of us set to inherit the nation. Conversations like these only rarely involve the subject of the discussion: teenagers. As an 18 year-old high school senior, I am left to wonder about the accuracy of this conclusion.

The conversation normally begins with a comparison of successor to predecessor; the predecessor being Generation X, the successor being Generation Y. The accepted belief is that Generation X is one prepared to take on the world’s evils in order to fulfill a belief in a social obligation to preserve the world’s beauty. While, on the contrary, Generation Y has been labeled as being socially problematic, inattentive and apathetic in comparison to our predecessor. This notion ignores the systemic social obstacles and restrictions that limit our capabilities for success.

Take Milwaukee for example. In an effort to lessen teenage involvement in criminal activities, the authorities implemented curfews and rules limiting teenage interaction as a whole. Select malls and stores won’t allow patrons under 18 to enter after a certain time without adult supervision. After the arcades, skate parks and record stores start to close, there is nothing left. The result is a situation that my friends and I found ourselves in two years ago -- young, broke and bored. Little did we know our solution was right behind our school, Riverside High School.

The Urban Ecology Center welcomed us with open arms and smiles and gave us a place where we could exist as “just us,” for free. After spending no more than 15 minutes there, we knew it was a welcoming place that would be a cornerstone of our friendship. In addition to giving us a place for our lives to happen, it also gave us an opportunity to be active. It is a place where we create while facilitating conversations among ourselves about our place in the city and our connection to it.

Ultimately, the discussion of my generation’s merit can be decided only with time and opportunities for us to prove that we aren’t apathetic and problematic. The discussion will continue and our story will unfold and just how important the Urban Ecology Center has been as a setting to our lives will become more apparent in the story of us.

**RIVERSIDE PARK**

A lot is happening at Riverside Park this summer! Some new programs this summer include: archery programs, an Ice Cream Social, Naturalist Programs, the canoe and kayak shuttle service, Grown-up Summer Camp and more.

— Jamie Ferschinger, Branch Manager - Riverside Park

**WASHINGTON PARK**

Summer, Summer, Summer! Vacations and no school. Let us be your drop in for summer activities, programs, or just plain hanging out. Come out and volunteer, learn about planting and gardening, fish, feed the animals, borrow adventure equipment and much, much more. Let Washington Park be your canvas for fun and learning.

— Terry Evans, Branch Manager - Washington Park

**MENOMONEE VALLEY**

Get to know the Valley and our surrounding area in a new way this summer! Join us any Friday for Friday Fishing Club, or hop on a bike and come explore with us in our Southside Biking Adventure Club! And be sure to stop by for our Summer Celebration Festival!

— Glenna Holstein, Branch Manager - Menomonee Valley

All branches will be closed July 4, August 26 & 27. Riverside Park and Menomonee Valley branches will close at 5pm on August 25.
In Stitches: A learn-to-Sew Class for Kids
Learn how to use a sewing machine and how to hand stitch, then make a simple, fun project to take home. Taught by sewing instructor, Julie Ruplinger. Sewing machines provided. Fabric generously donated by children’s clothier Florence Eiseman.

Girl Scouts: Fantastic Frogs
Discover how frogs grow from eggs to tadpoles to full grown fly-snatchers. Then meet some real live frogs!

Life in the Lagoon
Join us and handle some pond animals in our Native Wisconsin Animal room and catch some water critters.

Above the Clouds: Martial Arts
Learn respect, discipline and self-confidence at this martial arts camp, hosted by Above the Clouds.

Cooking with the Family: Power Bites and Energy Bars
Learn how to make simple, nutritious snacks in this hands-on family class.

Driven to Discover: Outdoor Mini-Research Projects for Kids
Discover a different aspect of being a citizen scientist and conduct "mini-inquiry" projects!

NIGHT AT THE SHELL IN WASHINGTON PARK
Come on out for live music as we celebrate the great outdoors, summer, music and the Urban Ecology Center in Washington Park.

(CW) Wed., Aug. 19 | 6:30 - 8:30PM

In Stitches: A learn-to-Sew Class for Kids
Learn how to use a sewing machine and how to hand stitch, then make a simple, fun project to take home. Taught by sewing instructor, Julie Ruplinger. Sewing machines provided. Fabric generously donated by children’s clothier Florence Eiseman.

Girl Scouts: Fantastic Frogs
Discover how frogs grow from eggs to tadpoles to full grown fly-snatchers. Then meet some real live frogs!

Life in the Lagoon
Join us and handle some pond animals in our Native Wisconsin Animal room and catch some water critters.

Busy Bees
Learn about our busy pollinators and their place in our urban environment. Honey samples included!

(MV) Sat., Jul. 11 & Aug. 22 | 10 - 11:30AM
For adults and children | $5 (Nonmembers: $10)

Grandkids in the Park

Insects
From grasshoppers to potato bugs, come learn and catch our wonderful insects!

(WP) Fri., Jul. 17 | 11AM - 12:30PM
For grandparents and accompanied grandchildren | Free - donations appreciated

Wildflowers
Identify the native wildflowers around the Washington Park Senior Center and learn about the animals who depend on them.

(WP) Fri., Aug. 21 | 11AM - 12:30PM
For grandparents and accompanied grandchildren | Free - donations appreciated

Some programs fill quickly! Register today to save your spot!

FAMILY PROGRAMS

JULY & AUGUST

Quick Guide

3 WAYS TO REGISTER:

1. ONLINE: www.urbanecologycenter.org
2. BY PHONE: (414) 964-8505
3. IN PERSON: Just stop by!

(RP) = Riverside Park
1500 E. Park Pl.

(WP) = Washington Park
1859 N. 40th St.

(MV) = Menomonee Valley
3700 W. Pierce St.

= Accessible for persons with disabilities
Please call 2 weeks ahead of time.
Introduction to Fly Fishing: 4-part Series
Join Southeastern Wisconsin’s Trout Unlimited chapter for a four-part series introducing you to recreational fly-fishing. Indoor and outdoor instruction will cover fly rods, casting, fish species, where to find them and more. Registration required by July 5th.

(P) Wed., Jul. 8, 15 & 22 | 6 - 8PM
(Sat., Jul. 11 | 10AM - noon
For adults | $5 (Nonmembers: $10)

Walk and Talk Series
Walk and Talk at Menomonee Valley
Explore both our building and Three Bridges Park on a guided tour with our Branch Manager Glenna Holstein.

(MV) Weds., Jul. 8 & Aug. 19 | Noon - 1PM
For adults | $5 (Nonmembers: $10)

Walk and Talk at Riverside Park
Explore Riverside Park and the Milwaukee Rotary Centennial Arboretum on a guided tour with one of our docents.

(RP) Sat., Jul. 11 & Aug. 8 | 10 - 11AM
For everyone | $5 (Nonmembers: $7)
Registration required by 5pm the day prior to each tour

Walk and Talk at Washington Park
Explore both our building and Washington Park on a guided tour with our Branch Manager Terry Evans.

(RP) Thurs., Jul. 16 & Aug. 20 | 4 - 5PM
For adults | $5 (Nonmembers: $10)

Hatha Yoga for All Levels: 6-week series
Join Certified Yoga Teacher Lisa Lewis for a 7-week classical Hatha yoga series. Modifications of poses are offered to address all students’ abilities.

(RP) Every Thu., Jul. 16 - Aug. 20 | 5:30 - 6:45PM
For adults and teens | Members: $80 (Nonmembers: $90)

Yoga on the Tower
Hatha Yoga classes will be taught in an intimate setting on the top of the tower. Bring a yoga mat and dress comfortably for being outside. Please contact instructor Lynn Jack at lynn.jack@froedtert.com with any questions.

(RP) Sat., Jul. 25 & Aug. 29 | 8 - 9:00 AM
For adults and teens | $10 (Nonmembers: $12)

Food Preservation Classes
Pickling Beyond the Cucumber
There’s more to pickles than just cucumbers. Learn the basics of safe pickling, can a batch of non-cucumber pickles and prepare a small batch of refrigerator pickles in this hands-on class. Bring an apron if you wish as well as a small box or basket in which to carry home a few jars of finished product. Registration required by July 19th.

(RP) Tue., Jul. 21 | 7 - 8:30PM
For adults | $35 (Nonmembers: $40)

Bloody Mary Essentials
In this hands-on class you’ll learn how to preserve your own tomato base and pickled accoutrements for creating a signature Bloody Mary. You’ll have a chance to taste these homemade drinks and take home the finished product. Bring an apron and a small box for your canned goods. Registration required by Aug 28th.

(RP) Mon., Aug. 31 | 6 - 8:30PM
For adults | $40 (Nonmembers: $45)

Invertebrate Investigations
Get up close with a diverse array of spineless critters that crawl, dig, squirm, fly and swim. We will practice sampling techniques, analyze adaptations and examine the contributions invertebrates make toward healthy habitats. Dress for the outdoors.

(RP) Sat., Jul. 11 | 10 - 11:30AM
For adults | $5 (Nonmembers: $7) Land Stewardship and Docent Volunteers: $3

Slimy and Scaly Herptiles
Discover the amazing adaptations of reptiles and amphibians, become familiar with some common species and learn the part they play in native ecosystems. Dress for the outdoors.

(RP) Sun., Aug. 9 | 2 - 3:30PM
For adults | $5 (Nonmembers: $7) Land Stewardship and Docent Volunteers: $3

Healthy Korean Cooking for Everyone!
In this interactive cooking class for kids and families we’ll use produce from our gardens to create Rice and Veggie Rolls, Festive Noodles with Vegetables, and a Spicy Cucumber Salad. Please register by July 22nd.

(WP) Thu., Jul. 30 | 6 - 8:00 PM
For adults and accompanied children
| Adults: $6 (Nonmembers: $9)
| Children: $4 (Nonmembers: $7)

Wellness programs

Group Fitness Sessions & Summer Boot Camps
Enhance your health and quality of life. Gain physical stamina and nutritional savvy from the Center and Fit4You Traveling Trainer. Get active and learn how to achieve your health goals day by day.

(WP) Wed., Aug. 5 | 6 - 7:30PM
For adults | $7 (Nonmembers: $10)

(WP) Every Sat. except Jul. 4 | 8 - 9:30AM
(WP) Every Tue. | 6 - 8PM
For everyone | $5 (Nonmembers: $10)

Campfire Cooking Series
Practice the art of campfire cooking with these simple, yummy meals.

Breakfast
Registration is required by 5pm on July 15th.

(RP) Thu., Jul. 16 | 6 - 7:30PM
Dinner
Registration is required by 5pm on July 29th.

(RP) Thu., Jul. 30 | 6 - 7:30PM
Desserts and Snacks
Registration is required by 5pm on August 12th.

(RP) Thu., Aug. 13 | 6 - 7:30PM
For everyone | Adults: $7 (Nonmembers: $10)
Children: $5 (Nonmembers: $8)

All branches will be closed July 4, August 26 & 27. Riverside Park and Menomonee Valley branches will close at 5pm on August 25.
**Canoe Equipment Shuttles**
Enjoy paddling the Milwaukee River without the hassle of staging cars and hauling equipment. Space on shuttles is limited. Nonrefundable registration and completion of Water Safety Course is required.

**Upriver Canoe and Kayak Shuttle**
We’ll leave from Riverside Park at 9:30am and drop you off at your choice of Kietzsch, Lincoln or Estabrook Parks. Paddle back to Riverside Park by 4pm and we’ll help you take out. Boat(s), paddles and PFDs included.

**Downtown Canoe and Kayak Shuttle - 1pm Pick-up**
Launch from Riverside Park at any time and we’ll pick you up at 1pm from the Milwaukee Rowing Club. Boat(s), paddles and PFDs included. **Nonmembers**: $7

**Girls Night Outdoors**
Bike to Estabrook Park for a round of disc golf, stop at the Beer Garden, then bike back. Equipment provided (or bring your own). Bring cash for drinks. **Registration required by July 9th**.

**River Rhythms Paddle**
Canoe to Pere Marquette Park for River Rhythms. Equipment provided. Meet at the Milwaukee Rowing Club Boathouse. Registration required 24-hours in advance. Equipment provided. Meet at archery range listed.

**Kinnickinnic Park**
Thu., Jul. 23 | 4 - 7pm

**Warnimont Park**
Sat., Aug. 1 | 10am - 1pm
Thu., Aug. 20 | 4 - 7pm

For adults and children ages 10 and under | $5 per person (Nonmembers: $20 per session)

**Canoeing for Beginners**
Learn paddling technique and more through guided instruction.

(WP) Sat., Jul. 18 & Aug. 8 | 10:30am - noon
For adults and accompanied children ages 6 and up | Adults: $6 (Nonmembers: $9) Children: $4 (Nonmembers: $7)

**Family Canoe Olympics**
Compete in a series of canoeing challenges on the Washington Park lagoon including canoe tug-of-war. All equipment provided.

(WP) Sat., Jul. 25 | 10 - 11:30pm
For adults and accompanied children ages 6 and up | Adults: $6 (Nonmembers: $9) Children: $4 (Nonmembers: $7)

**Family Canoe Olympics**
Children: $4 (Nonmembers: $7)

**Kayak Downtown Milwaukee**
Learn basic paddling techniques and head downtown. Dress in waterproof or quick drying clothing. Equipment provided. Registration is required.

(RP) Tue., Jul. 28 | 6:30 - 8:30pm
For adults and teens | $20 (Nonmembers: $25)

**Kayak Outing to Village Park**
Kayak from Mequon/Thiensville Village Park. Transportation and equipment provided. Registration is required.

(RP) Sat., Aug. 22 | 9am - 1:00pm
For adults and teens | $30 (Nonmembers: $35)

**Fox River Moonlight Paddle**
Paddle the Fox River, launching from Mukwonago and ending at Tischigan Lake. Equipment and transportation provided. Bring a snack. Registration required by 10am on August 28th.

(RP) Sat., Aug. 29 | 5:30pm - midnight
For adults | $45 (Nonmembers: $50)

**New! Canoe Shuttles**
Enjoy paddling the Milwaukee River without the hassle of staging cars and hauling equipment. Space on shuttles is limited. Nonrefundable registration and completion of Water Safety Course is required.

**Upriver Canoe and Kayak Shuttle**
We’ll leave from Riverside Park at 9:30am and drop you off at your choice of Kietzsch, Lincoln or Estabrook Parks. Paddle back to Riverside Park by 4pm and we’ll help you take out. Boat(s), paddles and PFDs included.

**Downtown Canoe and Kayak Shuttle - 1pm Pick-up**
Launch from Riverside Park at any time and we’ll pick you up at 1pm from the Milwaukee Rowing Club. Boat(s), paddles and PFDs included. **Note:** there is a 200 yd. portage at North Avenue.

**Girls Night Outdoors**
Bike to Estabrook Park for a round of disc golf, stop at the Beer Garden, then bike back. Equipment provided (or bring your own). Bring cash for drinks. **Registration required by July 9th**.

**River Rhythms Paddle**
Canoe to Pere Marquette Park for River Rhythms. Equipment provided. Meet at the Milwaukee Rowing Club Boathouse. Registration required 24-hours in advance. Equipment provided. Meet at archery range listed.

INTEREST GROUPS

Friends of Real Food: Potluck Dinner and Program ❤️
(RP) Weds., Jul. 8 | 6 - 8 PM

Good Food Book Club ❤️
(RP) Tue., Aug. 18 | 7 - 8 PM

Faith and Ecology ❤️
(RP) Tues., Jul. 21 & Aug. 18 | 7 - 8:30 PM

Urban Echo Poets ❤️
(RP) Thu., Jul. 9 & Aug. 13 | 7 - 8:30 PM

Urban Stargazers ❤️
(RP) Thu., Jul. 9 | 7 - 8:30 PM

Transition Milwaukee: All City Hub Meeting ❤️
(RP) Mon., Jul. 27 & Aug. 24 | 6:30 - 8:30 PM

Early Morning Birdwalks
(MV) Every Tue. | 8 am
(WP) Every Wed. except Aug. 26 | 8 am
(RP) Every Thu. except Aug. 27 | 8 am

Find full descriptions and details about these programs on our website www.urbanecologycenter.org/calendar

Quick Guide

Volunteer Park Ranger Crew

Find these weekly events on our website.

For more information, contact

Jennifer Callaghan at jcallaghan@urbanecologycenter.org.

CRIKT: Spider & Moth Monitoring
Join the Citizens Researching Invertebrate Kritters Together (CRIKT) team for an evening of spider and moth monitoring. Learn the types of spiders and moths we’re researching, then head into the park to look for these species. For more information, contact Jennifer Callaghan at jcallaghan@urbanecologycenter.org.

(RP) Mon., Jul. 13 | 7:30 - 10 PM
For adults and teens | Free - donations appreciated

Some programs fill quickly! Register today to save your spot!

3 WAYS TO REGISTER:

1 ONLINE: www.urbanecologycenter.org
2 BY PHONE: (414) 964-8505
3 IN PERSON: Just stop by!

(RP) = Riverside Park

(WP) = Washington Park
1859 N. 40th St.

(MV) = Menomonee Valley
3700 W. Pierce St.

® = Accessible for persons with disabilities
Please call 2 weeks ahead of time
You know that old saying: “you can’t judge a book by its cover?” It turns out the same is true of restoration projects like Three Bridges Park. You can’t get the full story just from looking at the “cover” — what’s visible above the surface. What you see above ground doesn’t tell you everything, because the proof is in the pudding ... or in this case, the soil. Three Bridges Park is on the site of a brownfield (a vacant post-industrial parcel of land) in the Menomonee Valley. With every passing year, Three Bridges Park loses its resemblance to a brownfield and gains resemblance to a natural greenspace. We can see how the park is taking shape with the establishment of native plants and trees. More flowers are blooming this year than ever. What we can’t see are the nutrients in the soil that are contributing to this change. The change from brownfield to greenspace makes Three Bridges Park a perfect spot to examine how changes in nutrients affect native habitats. Healthy soil is essential to having a healthy ecosystem because soil is a living, breathing (yes, breathing) thing that is complex with beneficial microbes, bacteria and fungi associated with the root system of plants and trees.

We are very excited to have begun a unique research project in partnership with Bryant Scharenbroch from the Morton Arboretum that will look at the effect additional nutrients have on the health of Bur Oaks, prairie plants and soil. We will apply four different treatments on 56 plots throughout the park, allowing us to compare different treatments and to get a better understanding of what treatment type works best for each kind of plant.

But Jeff, what are the treatments? Well, I’m glad you asked. The four treatment types are biochar, biosolids, biochar/biosolids combined and the “control”—no treatment. Biochar is wood that has been burned in a low/no oxygen environment, which creates a charcoal-like consistency. It helps to retain water and water-soluble nutrients, increase soil fertility and protect against soil-borne diseases. Biosolids, or Milorganite—made right here in Milwaukee!—is composed of heat-dried microbes that have digested organic material in wastewater. Once applied, it slowly releases nitrogen to be available for plants.

The treatments were applied with the use of an air knife (pictured in next column); which pressurizes up to 250 psi and directs air. The benefit of using this tool for “tilling” is it doesn’t damage the root system of a tree, therefore reducing the amount of stress. For the control plots the soil was “tilled” but no treatments were added, to ensure that we have the best scientific comparison.

The long-term plan for this research is to monitor the health of the soil and the growth/health of the above-ground vegetation. We will conduct soil tests to measure levels of nutrients, beneficial microbial fungi, respiration (remember, soil breathes!) and temperature and we will weigh and analyze above-ground plant mass to study correlation between soil health and vegetation health. Because remediation of soil takes a long time, this research project theoretically will be in the works for over 10 years, and over that time we hope to see the soil health improve. Just like reading a good book, this study is going to take some time, and we’re excited to learn the whole story!

Soil Sleuthing
by Jeff Veglahn, Land Steward

Take a Hike, Milwaukee!
continued from page 1

your friends and family to hike with you, especially if they haven’t experienced “nature in the city” before. The routes are family-friendly and tailored to different abilities so everyone can participate. The hike will include stretches in beautiful Riverside Park as well as the Milwaukee Rotary Centennial Arboretum. We hope that you will organize a big team for our inaugural HKE MKE. The more the merrier!

Full details about HKE MKE will be coming out soon, but in the meantime you can head to urbanecologycenter.org/hkemke and sign up to get an email when registration opens. Bring your friends and share the experience of Milwaukee’s natural beauty! ✨
This newsletter is a publication of the Urban Ecology Center, a 501(c)3 nonprofit organization. Thanks to the generous annual contributions of 215 foundations, corporations and organizations, 3300 members and many in-kind donors the Center provides safe parks and programs for over 300,000 people per year.

To make a contribution, please see below for the easy to use form, visit our website at www.urbanecologycenter.org or call the Center at (414) 964-8505.

The Urban Ecology Center fosters ecological understanding as inspiration for change, neighborhood by neighborhood. Our Environmental Community Centers:

- Provide outdoor science education for urban youth.
- Protect and use public natural areas, making them safe, accessible and vibrant.
- Preserve and enhance these natural areas and their surrounding waters.
- Promote community by offering resources that support learning, volunteerism, stewardship, recreation, and camaraderie.
- Practice and model environmentally responsible behaviors.

The Urban Ecology Center Newsletter is created and distributed through a team effort by the following people: Carinean Buhk, Maddie Bird, Matthew Gnas, Judy Krause, Jeff McAvoy, Pat Mueller and Jessica St. John.

Contributing writers: Jamill “Jimmy” Bradley, Omar Bonilla-Ortiz, Ken Leinbach, Jeff Veglahn and Katie Wipfl.]}

BECOME A CONTRIBUTING MEMBER

By making your gift, you become a contributing member of the Center. Your support provides learning opportunities for thousands of urban youth each year and allows you to enjoy contributing membership benefits at all three of our branches.

Choose a Contributing Member Level:

- Student - benefits one college student ........... $30
- Individual - member plus one guest ............... $35
- Family - two adults, and all children or grandchildren under 18 in a household plus one guest. ........... $45
- Other - contributions above $45 receive family level benefits and can help us: provide a membership for a family in need ($90) provide a Summer Camp scholarship ($200) restore urban land with native plants ($500) Please enter an amount ........... $

TAKE A HIKE, MILWAUKEE!
by Ken Leinbach
One of my favorite things to do is be fully immersed in nature while hiking in the middle of the city.

A BIGGER PLACE
by Omar Bonilla-Ortiz
... overcoming the disconnect and isolation I’d experienced in my own neighborhood. It ended with my sentiment that we as a community would work together to make the neighborhood a “bigger” place.

LAKE MICHIGAN LESSONS
by Katie Wipfli
One of my favorite places to take school groups is Lake Michigan. It is such a valuable resource right in the backyard of our city.

THE STORY OF US
by Jamill “Jimmy” Bradley
The Urban Ecology Center welcomed us with open arms and smiles and gave us a place where we could exist as “just us,” for free.

SOIL SLEUTHING
by Jeff Veglahn
You know that old saying: “you can’t judge a book by its cover?” It turns out the same is true of restoration projects like Three Bridges Park.

SEE FOR YOURSELF! (NO REALLY, SEE WHAT’S HAPPENED WITH YOUR SUPPORT)

Over 20,000 plants and trees were planted by our team and volunteers in the last three years.

Summer Celebration Festival!
Menomonee Valley | Saturday, July 25 | Noon - 4pm
